As a dedicated, diligent, and profoundly motivated individual, I am enthusiastically seeking opportunities to contribute as a valuable team member in a dynamic work environment. My determination is focused on leveraging and enhancing my education, skills, experiences, and capabilities to create a significant and meaningful impact.

Work History

03/2022 – Present

Software Engineer
Shopback

– Managed, maintained, and implemented features for multiple Back Offices and end-user webpages across eleven countries, ensuring seamless functionality and heightened user satisfaction.

– Design and develop a robust Back Office and end-user website for the 'Earn More' feature in ShopBack, resulting in increased user engagement and revenue growth.

– Improve components and integrated a new components in a library component of the company, improving functionality and enhancing the user experience through team collaboration.

– Provided solutions, created migration template, update deployment pipelines, authored proposal documents, and supported other teams in migrating sub-apps in micro frontend from a single-tenant to multi-tenant architecture.

01/2020 – 03/2022

Frontend Developer
Shopee

– Built multiple sub applications to support local operations in Vietnam, including Game Admin, Warehouse, Flash Sale, Seller Rewards,etc.

– Built landing page website for Seller Rewards program.

– Researched and developed a cross-platform desktop app supporting Windows/macOS. Shopee operators can utilize this desktop app to create a carousel banner, a campaign calendar, and a drawing tool.

– Developed the game 'Số gì đây?' and created an admin page on the Shopee Desktop App. This admin page facilitates the setup of data and images, allows the importation of attendees, and handles the logic for randomizing the winner based on specific criteria.

– Conducted research and authored documentation on integration testing.

– Suggested improvements to enhance the UI and make the product better.

– Organized a technical sharing session for team members. Received Shopee reward in celebration of Happy Trainers Day.

05/2019 — 12/2019   **Javascript Developer**
